

Our son David had not slept in 11 months day or night. On a good night he would wake every 3 hrs and on a bad night he would wake every hour constantly crying. We brought him to every place thinkable to see if anyone could solve the problem, we were just exhausted. Just by chance we came in contact with a person that Sean had been attending for sometime so I got his number and he called to my house, since then our little boy is sleeping 10-12 hrs a night and 2 hrs during the day he is like a new baby even more settled and happier during the day. We cannot thank Sean enough for the huge difference he has made in our home.

Margaret, Mullingar.
